Olatunbosun Israel

Front-end Developer

As a frontend developer, I'm passionate about bringing digital experiences to life. I find joy in creating interactive and visually appealing web applications that are both functional and engaging. Building things is my true passion, and I'm eager to bring my skills and enthusiasm to your team.

Portfolio Projects

2022
Meta-verse Themed Website
Made a meta-verse-themed website for immersive digital experience using *React, Next JS and Framer-motion.*
Click here to view website
